AXINAR

Your Trusted Manufacturer

AXINAR is a rapidly growing company specializing in the production of innovative heating products. Established in 2010, our mission is to provide comprehensive, eco-friendly, and intelligent heating solutions for both industrial and residential purposes.

As a trusted partner, we design and manufacture high-quality heating products that meet the needs of even the most demanding clients. Simultaneously, we cultivate long-term relationships of trust with collaborators and suppliers, maintaining a high level of service.

The company continually expands its product range with a focus on continuous quality improvement, sustainable development, innovation integration, and adopting technological advancements. Our updated portfolio of heating system products includes:

- Biomass Boilers
- Burners
- Heating System Components
- AXINAR Academy Training/Maintenance Services

All our products are crafted from certified raw materials and top-quality components to ensure reliability. For this reason, we conduct rigorous quality control and select suppliers based on strict criteria. We possess fully customized production facilities for heating systems and the necessary expertise to manufacture both the final products and their operational software.

We appreciate your trust and remain committed to achieving even greater goals. Thank you!

Nikolaidis Giorgos (Mech. Engineer)
CEO & Founder
AXINAR Company

PELLETWORK

20 - 150 KW SERIES

- Complete System
- Robust Modular design
- Ease of use
- Multiple Vertical flue gas paths
- AutoClean Standard boiler
- Analog burner
- Practical fuel storage tank

PELLETWORK	PW20	PW30	PW45	PW75	PW95	PW120	PW150
Power (kW)	20	30	45	75	95	120	150
Power (Kcal)	17.000	25.000	38.000	63.000	85.000	100.000	130.000

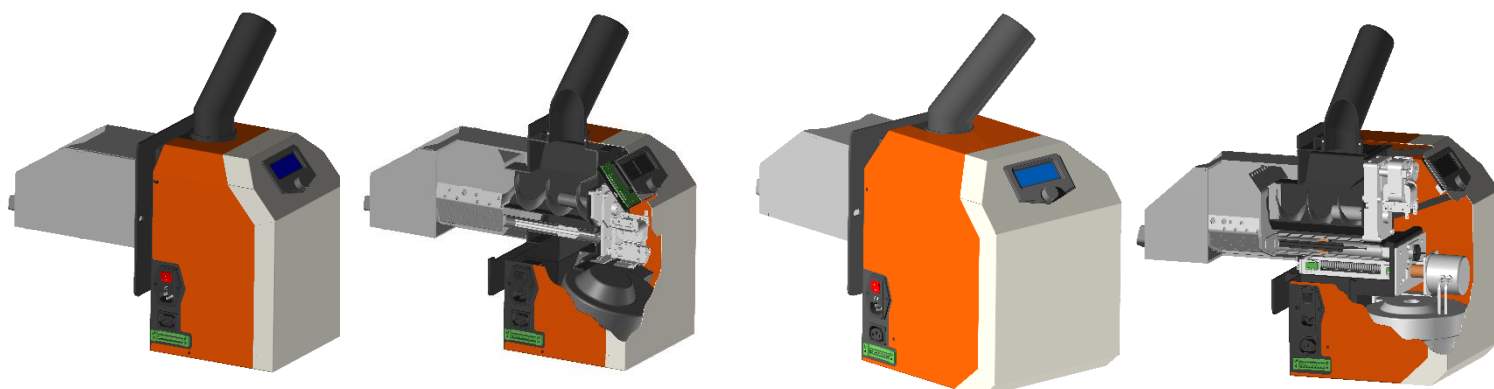

APOPLIM TSOVEA

20 – 45 KW

75 – 150 KW

- Analog Burner
- Ceramic Igniter (1200° C)
- High-grade non-magnetic stainless steel
- Internal auger
- User-friendly menu with only one button (translated up to 40 LGs)
- 5-step wizard for activation
- Large LCD screen
- Low-noise, multi-speed fan
- AutoClean by air
- AutoClean by sliding piston
- Auger included

PLUG & PLAY

1. Mount it on the boiler
2. Connect power
3. Plug Feeder
4. Connect the hot water sensor

APOPLIM	AP20	AP30	AP45
Power (kW)	20	30	45

TSOVEA	TS75	TS95	TS120	TS150
Power (kW)	75	95	120	150

PELIT 20 - 150 KW SERIES

- Multiple Vertical flue gas paths
- Autoclean standard boiler
- Large ash tray
- Certified Steel (EN 10204)

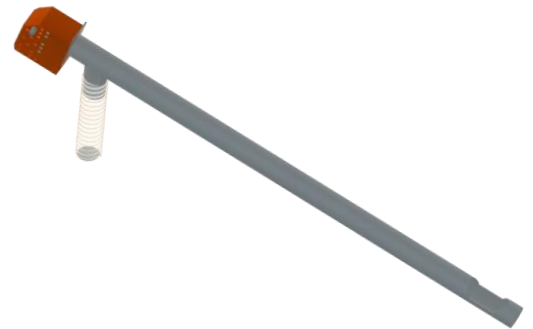

PELIT	PL20	PL30	PL45	PL75	PL95	PL120	PL150
Power(kW)	20	30	45	75	95	120	150
Power (Kcal)	17.000	25.000	38.000	63.000	85.000	100.000	130.000

EXTERNAL PELLET FEEDER

AUGER

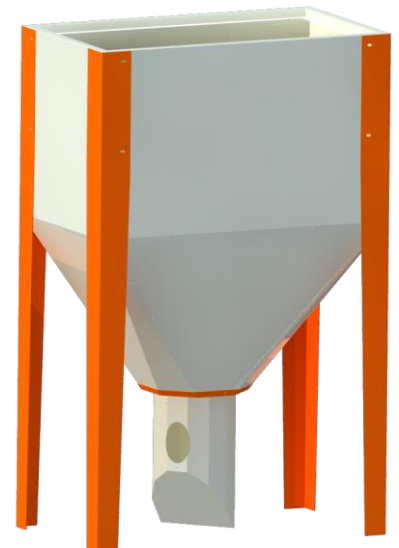

- Non-magnetic high-grade stainless steel
- Non-combustible 35cm polyurethane tube
- Ash-repellent material

Power (kW)	Dimensions (mm)
Max 190kW	Φ63 x1,45m

ABAR

- Made out of steel sheet with electrostatic paint
- 360 degrees revolving feeding port
- Conical shape
- Easy transport
- Convenient packaging

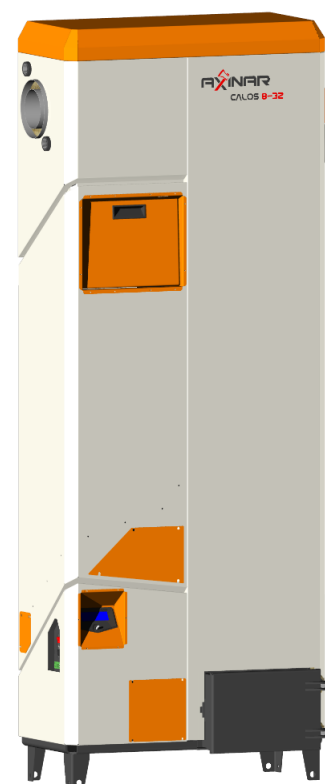

Capacity (L)	Capacity (kg)	Dimensions (cm)
310	200	48x94x120
1500	1100	

CALOS

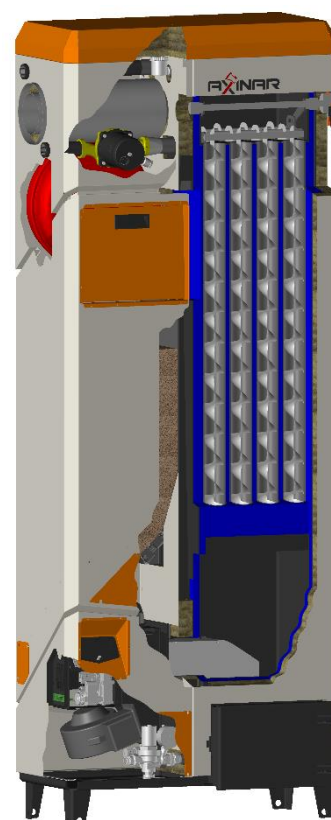

8 – 32 KW SERIES

- All-in-one pellet unit
- Ready to use
- AutoClean Standard boiler
- Easy transport & installation

Includes a circulator, an expansion vessel, a safety valve, an automatic air vent and an automatic filling valve with pressure gauge

CALOS	CL8 - 32
Power (kW)	8 - 32
Power(Kcal)	6.900 – 27.500
Length (mm)	700
Width (mm)	350
Height (mm)	1900
Ashtray Capacity (L)	15

BM

30 – 60 KW SERIES

- Large refueling door
- Flue gas thermometer
- Double centrifugal fan
- Automatic Pyrolysis cleaning
- Patented magnetic damper
- Alternative heat source control
- Excess heating management system
- Anti-frost function
- 3 combustion modes
- thermostat controlled

	BM30	BM60
BM		
Power (kW)	30	60
Power (Kcal)	25.800	51.600

PESKON

30 - 60 KW SERIES

- Large refueling door
- Integrated heat exchanger

PESKON	PSK30	PSK60
Power (kW)	30	60
Power (Kcal)	25.800	51.600

Pyrolino Plus

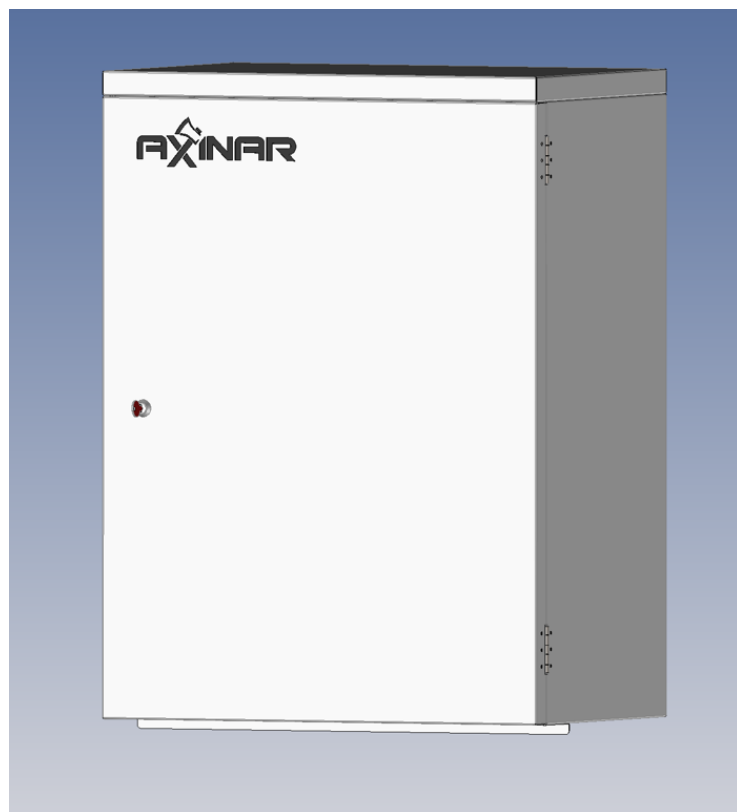

- Pellet Patio Heater for outdoor and semi-outdoor spaces
- High thermal efficiency (14kW output covers up to 60sqm)
- Automatic cleaning, with the operator's minimum intervention
- Zero smoke/
Zero odors
- Non-blackening glass
- Pellet container for 5.5 hours of continuous burning
- Return on investment within 3 months of use (pellet: 30% cheaper than propane per kW!)

Power (kW)	14
Power (Kcal)	12.038

CABINET FOR GAS BOILERS

- Compatible with 74 gas boiler models
- 30mm stonewool insulation
- Electrostatic paint.
- Locking mechanism

	JS1 small(1)	JS2 large(2)

Multi-zone heating controller

- Ideal for 2-4 zones
- Compatible with: Radiators, Circulators, Magnetic Valves (and/or in combination)
- Controlled Heat Release Function
- Sturdy Metal Construction
- Indicator LEDs and Short-Circuit Safety
- Wiring Instructions Included

	2 zones	3 zones	4 zones
Dimensions (mm) WxDxH	230x30x170	230x30x170	230x30x170

SolBox

- Conversion of solar energy into electricity for water heating
- Operates with 2 photovoltaic panels on the roof.
- Competes with the solar water heater, does not require an additional solar boiler but utilizes the existing electric water heater of the house.
- Does not require demanding water installation from the roof to the house space.
- Does not require Inverter installation.
- Uses safe electricity current (low-voltage current 70V)
- Operation monitored via application, with statistics and potential faults reported to the company.
- Smart Schedule (weekly program for achieving water temperature utilizing external heat source/holiday & vacation scheduling)

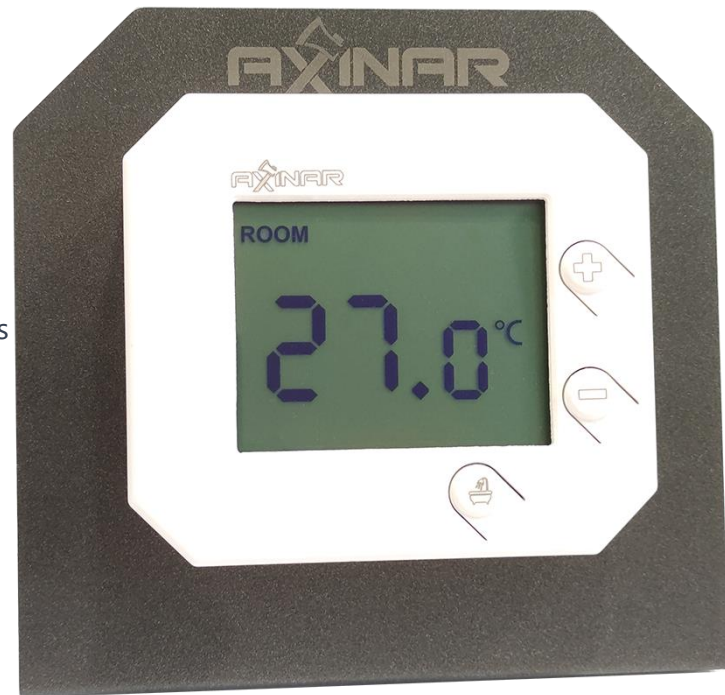

Dimensions (cm) WxDxH	14,5x9,5x14,5
-----------------------------	---------------

THERMOSTAT

AXISTAT

- Large, clear display
- 100% reliable operation with all battery types
- Accurate battery replacement warning
- Built-in battery voltmeter
- Easy installation
- Temperature measurement in Celsius only
- User-friendly operation with only 3 buttons

Operation:

- Domestic Hot Water (DHW) or cooling capability.
- Independent DHW option.
- Anti-freezing function.
- Intelligent adaptation to space targeted temperature.

	DOMESTIC	DOMESTIC WITH INDEPENDENT DHW	HOTEL UNITS
Dimensions (mm) WxDxH	110x20x95	110x20x95	110x20x95
